

PART 3: See Yourself on the Other Side

DATE: 03-10-2024

START

When God calls us we might be tempted to question his call. We might try to look for another option, or to serve him on our terms, or to use our plan instead of his. When God calls we know answering 'yes' can lead to suffering, but it also leads to a life that is in step with everything God desires for us.

- When have you said 'yes' to God and your life changed dramatically because of it?
- What suffering have you experienced from saying 'yes' to God?
- Where do you need to say 'yes' to God in your life?

READ

[Isaiah 50:7](#)

"Because the Sovereign LORD helps me, I will not be disgraced. Therefore have I set my face like flint, and I know I will not be put to shame."

THINK

When we are going through suffering or we are dealing with guilt and shame we can easily lose sight of what God has planned for us on the other side of our suffering. We can easily let our current circumstances and the opinions of others box us into hopelessness.

- When have you allowed your suffering to box you in?
- How the opinions of others affect how you live your life?
- How has God made his presence known to you during your suffering?

PRAY

Jesus, When I am faced with suffering, pain, and shame help me to see myself on the other side of it and the hope that you provide.

ACT

This week, think about where you need to answer God with a 'yes' and pray for the boldness to say yes even if suffering might be involved.
